

Elevating the Streetscape

Where **Digital Innovation** Meets Public Art

WHO ARE WE

We're Titchfield Digital Displays—a brilliant new chapter in outdoor advertising, where engineering precision meets street-side beauty.

Born from decades of experience in display innovation, hardware design, and commercial advertising, we've brought together leading industry professionals with over 25 years experience to reshape how people interact with public space.

With our advanced LCD units—engineered for extreme clarity, remote monitoring, low maintenance, and intelligent airflow design—**we're raising the bar for performance and sustainability.**

TITCHFIELD DIGITAL IS:
DESIGN-LED, TECH-FUELLED, AND FUTURE-FOCUSED.
AND **WE'RE JUST GETTING STARTED.**

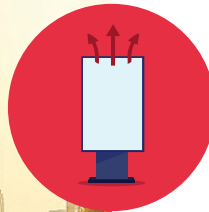

BUT WE'RE MORE THAN JUST SCREENS.

We're here to bring modern art to the streets—blending visual storytelling with cutting-edge tech, all wrapped in clean lines and elegant form.

**FROM DYNAMIC MEDIA TO INTELLIGENT DIAGNOSTICS,
WE GIVE BRANDS, CITIES, AND CREATIVES A NEW WAY TO SHINE.**

WHAT SETS US APART

"We don't suck—literally. Our ventilation system pulls air from the top, not the street, avoiding grime, dust, and pollution that clog up bottom-fed systems. Cleaner, and cooler air in the street environment."

REMOTE DIAGNOSTICS

Every screen is a smart screen. Log in from anywhere in the world and get real-time fault detection, performance stats, and system health—all without leaving your desk."

**PREMIUM PERFORMANCE WITHOUT
THE PREMIUM PRICE TAG.
SAME SPARKLE, LESS SPEND.**

THE GLASS IS GLORIOUS

Our anti-reflective, laminated safety glass is engineered for clarity and durability—delivering crisp visuals even in direct sunlight, without the eye strain.

- Anti-reflective coating: Reduces reflections to under 1%, compared to the typical 8%—for better visibility in bright environments.
- Air-gap design: Allows for easier maintenance—glass and LCD can be serviced independently.
- 13.5mm laminated safety glass: Built to resist vandalism, impact, and tampering.

Optional: For projects requiring bonded displays, we offer an optically bonded version—though our standard air-gap design is preferred for long-term serviceability.

LET'S MAKE IT **CUSTOM**

Our in-house design & engineering capabilities allow us to tailor our outdoor displays to your exact specifications.

Whether it's a sculptural silhouette for a cultural precinct, a sleek low-profile kiosk for retail, or a tech-forward unit that doubles as public art, we design around your environment.

**Unique forms. Tailored finishes.
Signature presence.**

***If you can dream it, we can build it—
and make it street-ready.***

TITCHFIELD | DUAL 75" OUTDOOR LCD KIOSK

BUILT TO PERFORM.

DESIGNED TO IMPRESS.

Display

Dual 75" UHD Screens (3840 × 2160 resolution)
Brightness range: 300–3000 nits with auto-brightness control
Full Array Local Dimming LED · Contrast ratio: 50,000:1
10-point touch (one-side) · Viewing angle: 178° wide (Optional)
7-year lifespan at full brightness (100%)

Durability

13.5mm laminated safety glass (as outlined on Page 5)
Air-gap design: LCD and glass serviceable independently
Finish: Standard RAL 9005 Black, or custom colours upon request
Housing: Galvanized steel · Standard: RAL 9005
Cooling: Intelligent heat exchanger for silent, efficient airflow

Outdoor Ready

IP66 Rated
Humidity: 5–98%
Fully Sealed

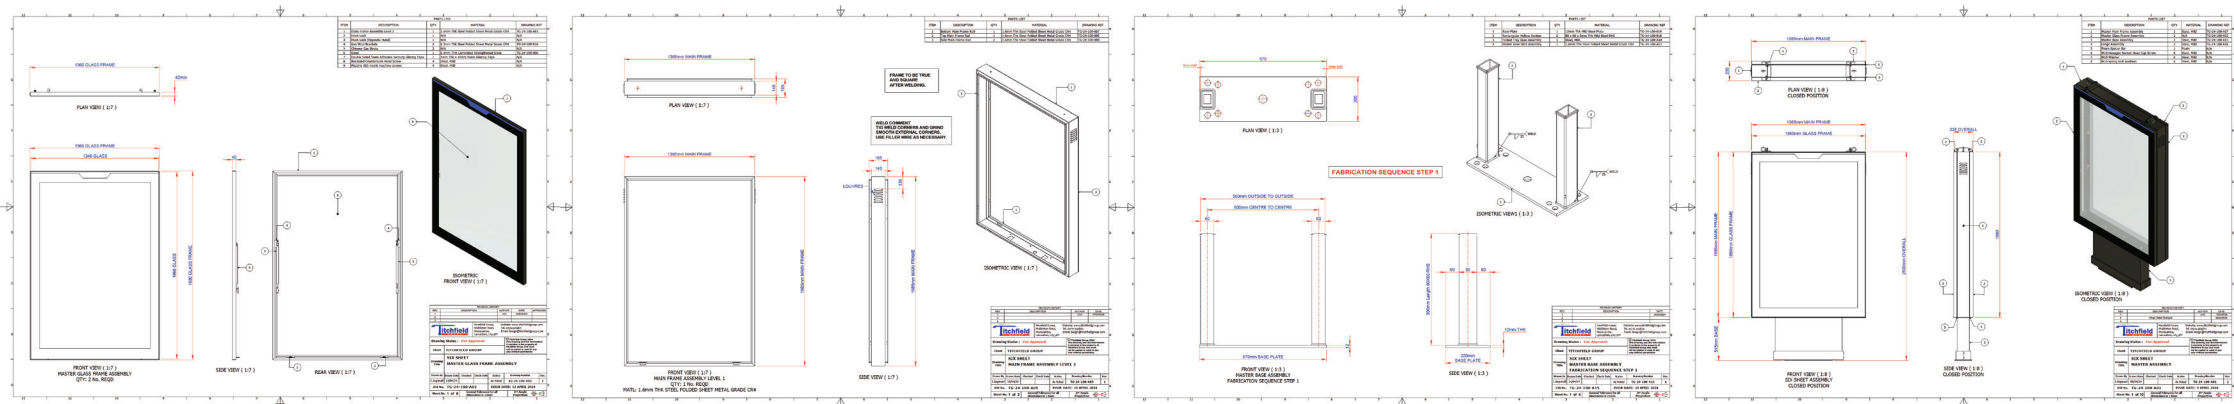

System & Control

–30°C to +50°C
Altitude: ≤2000m
Fully Smart
Smart Alerts: Temp / Humidity / Power / Door / Impact / Flood

Connectivity & Input

RJ45 Ethernet Port
Protocols: TCP/IP, HTTPS, NTP, and more
Power Supply: AC 230V ±10%, 50/60Hz

At Titchfield, design is a system—not a shot in the dark. From insight to installation, we follow a process that transforms bold ideas into real-world impact. Every detail is intentional. Every outcome, engineered.

- 01.** Discover – Know the space
- 02.** Define – Shape the vision
- 03.** Design – Craft the concept
- 04.** Develop – Build it out
- 05.** Deliver – Make it real

SUNLIGHT? **BRING IT ON**

With up to 3500 nits brightness and auto-dimming sensors, our screens shine day or night—rain or blazing sun.

Your content stays bright and readable—even with polarized sunglasses on. That's real visibility.

NO FILTERS **NO FUSS**

Our heat dissipation is engineered for quiet efficiency—minimal maintenance, maximum reliability.”

Smart airflow design with internal fans keeps things cool without the noise or drama. No filters, fewer breakdowns, and a longer-lasting screen. Quiet, cool, and built to last

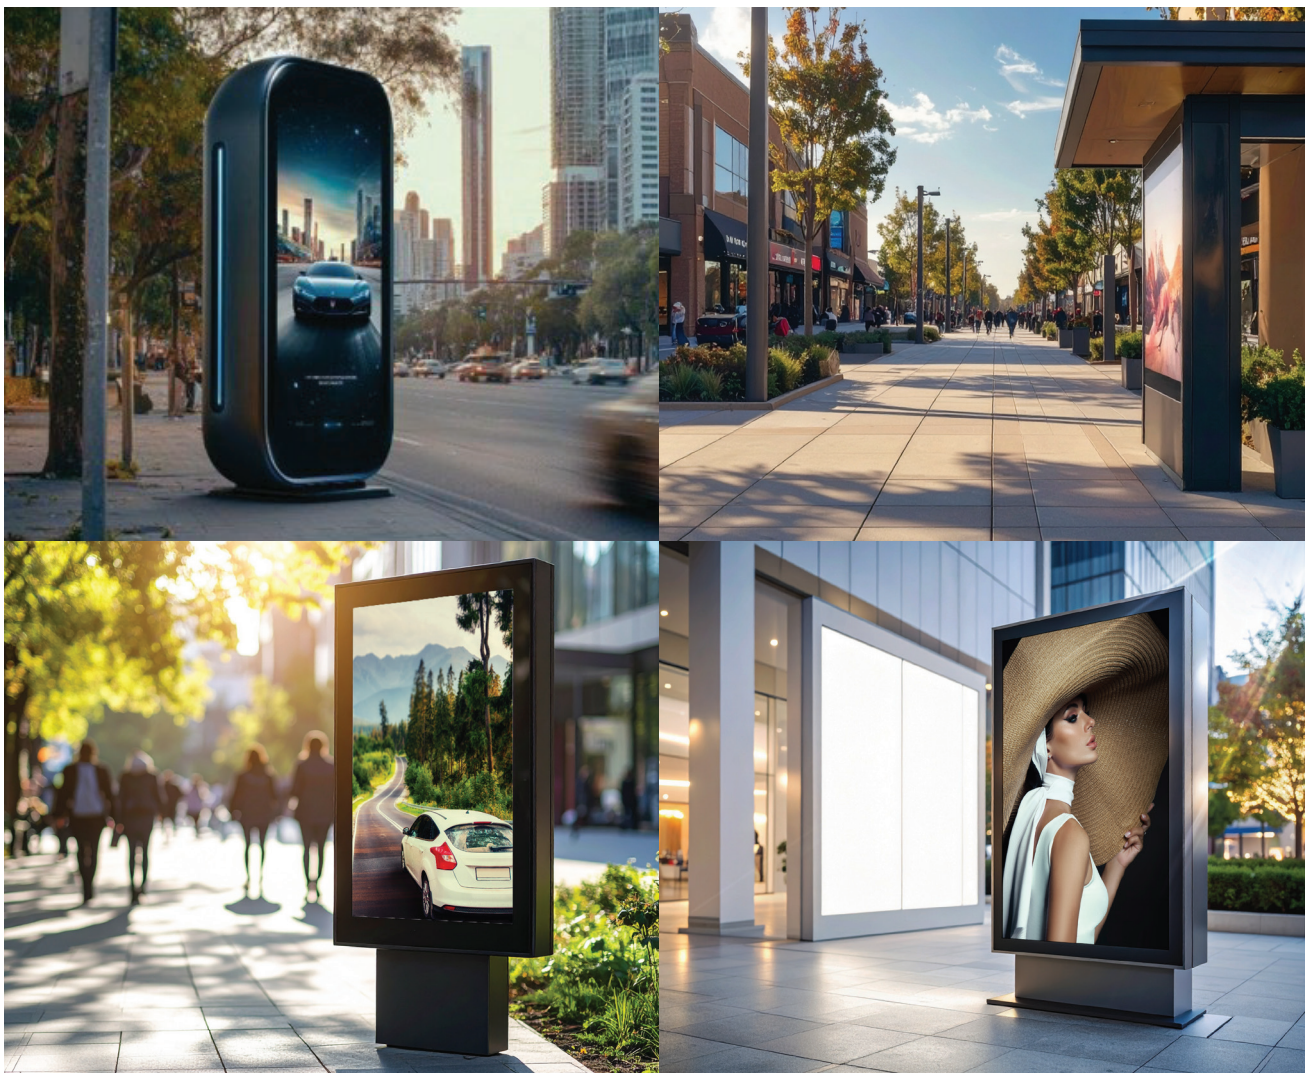

ART ON THE STREETS

We're not just selling ad space—we're curating digital canvases. Titchfield brings modern art to the roadside."

This is the emotional pull. It's more than just screens—it's a way to add culture, creativity, and beauty to public spaces.

ENGINEERED FOR DAYLIGHT DESIGNED FOR IMPACT

These aren't just advertising platforms—they're modern installations that bring art, clarity, and durability to public spaces. Whether it's sunlight readability or creative street presence, Titchfield redefines how digital screens live in the urban environment.

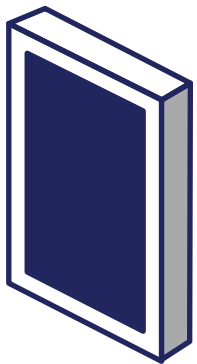

DID YOU
KNOW?

Our screens
aren't just bright
they're intelligent.

- Our displays use top-down airflow to avoid sucking in street-level grime. Breathing in city sludge is so last decade.
- We can remotely monitor and diagnose every screen worldwide from a single dashboard. It's like having a digital sixth sense.
- Our units are IP66-rated and IK10 impact resistant. Translation: rainproof, dustproof, and built for maximum durability.
- Our screens are up to 40% more affordable than legacy competitors—without compromising on quality. Luxury look, smart spend.

WE COVER END TO END

MAINTENANCE

FROM FIRST SKETCH TO FINAL SCREEN—BUILT, INSTALLED, MAINTAINED.

THE CLIMB: CLASSIC TO DIGITAL

Classic Billboard

Static, printed media—limited flexibility, high maintenance.

VS

Digital Display

Dynamic, high-brightness screens—customizable content, low upkeep.

FROM STATIC TO SCULPTURAL

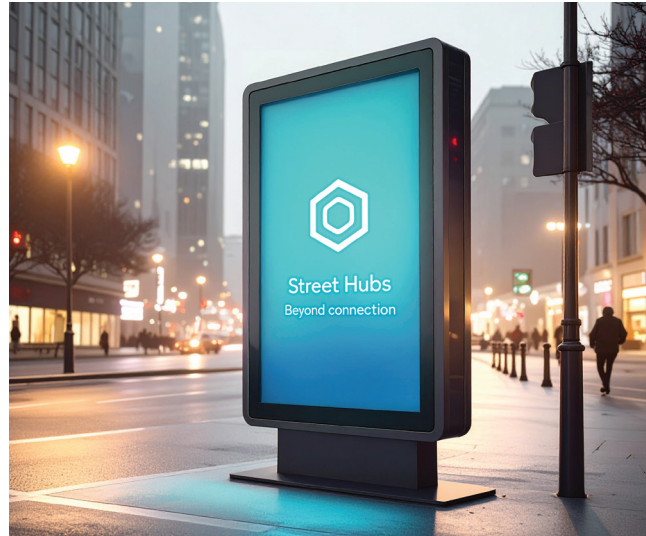

DIGITAL SCREENS NOW LEAD THE STREETScape REVOLUTION

TITCHFIELD: EMPOWERING THE SHIFT.

**Every site is different.
So is every screen.**

Each unit is custom.
built for its environment.
Tailored housing and finishes.

**We don't just install,
We stay connected.**
24/7 monitoring,
remote diagnostics,
and rapid-response

THIS IS WHAT THE FUTURE LOOKS LIKE.

WE BUILD CLARITY. WE SCULPT CULTURE
